WORK EXPERIENCE

JAN 2020 - APR 2020 (PT)

CodingBlocks
Teaching Assistant

I used to tackle questions related to the understudies joined up with Machine Learning or DataScience batch.

NOV 2019 - MAR 2020 (PT)

Google Code-In
Mentor@Tensorflow

The position involved mentoring the school going students (13-17) years of age to introduce them to open source and giving them the opportunity to become part of the open source community by working on real-world software projects, supported by an international community to help them learn and succeed

APR 2018 – APR 2020 (PT)

Developer Students Club
Competitive Programming Head

I worked in this association for a long time. In the principal year, I was an RNIS official, where I used to show understudies equipment and robots. Later I filled in as a serious Programming top of this general public, where we used to have programming challenges and hold workshops on advanced programming.
